

Welcome to our apartment in Nerja!

Check-in earliest 16:00 and check-out latest 10:00

Guest registration

As a legal requirement, Passport and other details of ALL guests (including children) must be submitted to the authorities in Spain prior to you taking up residence in any holiday rental property in Spain. The process is exactly the same as the check in service at a hotel. You will receive an e-mail from **GuestAdmin** with a link leading to the registration system. All guests should be registered at least 14 days before the check-in date. Please look out for emails from alerts@guestadmin.io They will provide a link for you to register everyone.

Keys

Once you have completed the guest registered, you will receive the contact details to [Eurosor](#) so you can agree with them on when and where you can pick up the keys. The Eurosor office is just next to the entrance to our apartment house, but they have limited opening hours, especially during holidays, that is why you have to complete the guest registration good time in advance so you can get the contact details to Eurosor. Inside the apartment there is an extra key which you are requested to leave at the same place on the small shelf in the hall. One of the keys is to the entrance door from the street, and the other one is for the entrance door to the apartment. **Please note** that the door will automatically be locked as soon as it is closed, so don't forget to take a key with you if you go out. Possible costs for support with opening the door will be passed on to the guest. The key to the balcony is in the balcony door. NB! The balcony door needs to be closed not to blow up of the wind.
